Yes, the schedule is correct.

We will arrive to the same dock at 8am. Does that for everyone else's schedule?

Gary – Just confirming that we are ready for you guys to come out for the subject inspection on Monday 4/4. Can you, or one of the dive team members, give us a heads up of when you would like to start? I'm assuming everyone would meet at the boat ramp where we met before. Is that correct?

Our current schedule is for the Dive Team to finish the cap inspection on Monday – Wednesday next week, and then install the cap pore water samplers on Thursday and Friday. Does that fit with you and your team's expectations?

Please let us know.

Thanks,
David
